Consumer Notes:

The first thing you may notice this month is that many of the DVD's listed for this month were also listed once or twice before ... perhaps making these things is more complicated than we were lead to believe. We have been assured, however, that they WILL ship this month. Urban Vision ships the "sequel" to the popular Golgo 13 this month in the guise of Queen Bee, and although the title might throw you, Bastard! isn't an adult title. It's actually a very good mainstream one. Certainly worth a look this month as well is the AD Vision release of the new Slayers movie... the follow-on to the popular TV series tapes now being released by CPM.
